#### Description:

DX-6600/DX-8800 enables you to switch up to 8 DVI sources from host computers in far locations to 8 digital displays using dedicated software. Like all PureLink™ products, the DX-6600/DX-8800 is built to be the most reliable device of its kind and offers a unique and affordable solution for pro and semi-pro installations where digital switching is a must.

#### Features:

- Supports up to WUXGA resolution at 60hz
- Matrix Switching with 8 DVI inputs and 8 DVI outputs
- 1080p / Computer Resolution up to 2048x1080 at 60Hz
- Built-in RS-232C LAN for external control via PC or Controller
- Controllable via any external controller (e.g. Vista Spyder, Barco Encore)
- Two Line LCD Display for Intuitive & Rapid Switching
- 19" Rack Mountable - Robust & Heavy Duty Casing
- Save Display EDID on input port
- Pixel reclocking & error correction for optimal picture quality.
- Flexible EDID Management (Fixed EDID, Real Time EDID, Standard EDID)
- HDCP Compliant
- XY Switch Mode
- User Friendly Software
- Local Monitoring Port
- Test Pattern Generation

#### Technical Specification

- Data Rate: 1.65 Gbps(single link)
- Connector Type: DVI-D/LC
- Power Supply: DC 12V/5A Adapter
- Consumption : 80 W (Max.)
- Dimension: 16.8"(W) x 6.5"(D) x 2"(H)
- Weight: 12 Lbs
